

BETWEEN THE A12 AND THE RIVER LEA

an exposition of academic speculations beyond 2012

Along the edge of the main Olympic site in the east end, a zone of transformation can be found between the A12 and the Lea River, taking in Hackney Wick, the Lee Navigation and Old Ford Lock. Over the past year the area has been a place of significant academic enquiry by students in London and further afield. The exposition showcases the coincidental diversity of thought and endeavor by the next generation of architects, designers and writers in time for the London Architecture Festival 2012.

Organiser:
Colin Priest
