# **Welcome!**

## **Department of Architecture**

The Department is one of the world's leading schools of architecture. We celebrated our centenary year in 2012. The Department's reputation has been sustained and enhanced by successive cohorts of students and teachers, and the PhD students have played a prominent role in that. All the incoming students are expected to make their own mark through the studies, research and practice.

The Department has a strong research community with postgraduate students being more than half of the total number of students. We offer a portfolio of Masters' degrees besides the PhD programme. The postgraduate programmes are unashamedly academic in their approach. Students are expected to acquire a deep understanding of the theoretical, historical and cultural context of architecture as well as mastering the technical and professional skills.

## **The Martin Centre for Architectural and Urban Studies**

The Martin Centre is the research arm of the Department. All PhD students are members of the Martin Centre and they study alongside academic teaching and research staff at the Centre.

The Martin Centre is one of the leading architectural research units in the world, with over four decades of high-impact research for government, industry and communities, both in the UK and internationally. It was first founded by Professor Sir Leslie Martin in 1967 as the Centre for Land Use and Built Form Studies, which was the very first architectural research establishment in the UK. It became The Martin Centre in 1974. The Centre was formed to undertake research funded by government (including the research councils), charities and industry, and has a large portfolio of research projects.

Martin Centre projects typically transcend the boundaries of traditional disciplines. Current research topics include cities and transport, sustainable buildings, history and philosophy of architecture, digital media design and communication, risk assessment and mitigation in the built environment, territorial conflict in divided cities, natural materials and structures, occupant behaviour and building performance, and cities in the developing countries. There is a rich environment of collaboration among the research groups and with other Departments across the University, and with other institutions in the UK, Europe, the US, China, Latin America, Africa and the Middle East.

## **Part I: Getting Set Up**

### **Graduate Induction Day**

The Graduate Induction Day takes place during the first few days of Full Michaelmas Term. You will meet the Head of Department, Graduate Directors, Graduate Administrators, Computer Officer, other administrative staff and students. You will also find out about the Department, your research programme, the Library, IT, health & safety and research skill development.

### **Meeting Your Principal Supervisor**

At or before the beginning of the Full Michaelmas Term you should contact your Principal Supervisor to initiate the first Supervision meeting to discuss the study programme. It is always the student's responsibility to initiate Supervision meetings. The Supervision meetings can be one-to-one meetings or the Supervisor may wish to involve other teaching staff (e.g. your Advisor) or students as appropriate. Occasionally and once the study plans are clear a small number of Supervision meetings may be carried out as teleconference, e.g. out of term time.

The Department requires the postgraduate student to maintain a Faculty Logbook (see below under Faculty Logbook and Researcher Development Log) which is used among other items to record each Supervision meeting.

### **University Card and access to the Department premises**

The University Card Office is run by University Information Services on behalf of the University and Colleges. The University Card looks like a credit card containing the cardholder's name and photo, College scarf (students, Fellows and College members only) plus a barcode that is primarily used for University Library borrowing. It is issued by your College upon arrival. It is increasingly used as a digital key to access the Department and College premises, the Department's digital services including photocopiers, printers and plotters.

You will need to have your card activated at the Faculty Office Reception for accessing the Department's premises ('Scroope Terrace').

Note the University Card is also recognised by many businesses in Cambridge and around the world. Production of the Card may entitle you to discounts.

For further information: <https://help.uis.cam.ac.uk/user-accounts-security/security/university-card>

## **1-5 Scroope Terrace**

Scroope Terrace houses the Faculty of Architecture and History of Art. This is where you will find the offices of the Graduate Office and the Department Secretary office, the Faculty Library, Lecture and Seminar Rooms, and offices of Faculty members.

## **Workspaces at the Department**

There are dedicated workspaces for research students in the attic of the Scroope Terrace. Hot-desk principles apply, which over the past few years have proven to enhance sociability, as it is a friendly, quiet and productive environment with the close knit space facilitating sociability as well as exchange of ideas, engineering a supportive research community. If any queries arise over space please alert the Graduate Directors.

## **Cambridge Student Information System (CamSIS)**

CamSIS is Cambridge's system for handling student information, records and transactions, from initial contact and application all the way through to graduation. It is a single shared system, with one record per student.

All transactions, processing and updates to the student's record are either carried out directly in CamSIS by University and College staff, the students themselves, or are downloaded into CamSIS from external organisations. This makes maintenance of the record simple and straightforward and ensures the accuracy and integrity of the information. Please make sure that you keep your contact details up to date.

Student Log in (you will need your Raven ID and password): [http://www.camsis.cam.ac.uk/cam-only/log\\_in\\_students/](http://www.camsis.cam.ac.uk/cam-only/log_in_students/)

For information on Raven, the University's central web authentication service: <http://raven.cam.ac.uk/>

## **Graduate Student Information**

For information about graduate student life in the Department (review of work, examinations, what to do if you are ill, working away and etc.)

see: <http://www.arct.cam.ac.uk/current-students/information-for-graduate-students-1>

## **Moodle: Virtual Learning Environment (VLE)**

The University uses Moodle as its VLE. Course materials will be available to you via Moodle. See: <https://www.vle.cam.ac.uk/login/index.php>

## Setting up your Personal Profile on the Department's Website

You will be able to set up your personal profile at the beginning of your first term and will be sent information on how to do this.

To see other student and staff profiles: <http://www.arct.cam.ac.uk/people>

## Travelling to the Department

It is best to travel to the Department on foot or by bicycle. Bicycle parking is provided at the front of Scroope Terrace. Bicycles must not be left at the rear of the terrace or in the car park. Do remember to lock your bicycle at all times, and, it is not advisable to leave detachable lights and other fittings on an unattended bicycle. Bicycles left on the street overnight are liable to be vandalised. On no account may bicycles be brought into the Department.

The car park at the rear of Scroope Terrace is controlled via a barrier and is for staff use only. There is a designated space for students, staff or visitors who have a disability and require vehicular access to the Department. For further information about this, please contact the Faculty Manager.

The University's Map is available from: <http://map.cam.ac.uk/?ucam-ref=global-footer>

## Faculty Facilities

### Faculty Library

You will be introduced to the Library and its staff as part of the induction day programme where you will find out about the Library and libraries at Cambridge.

The Library admits members of the Faculty and others by arrangement. Graduate students may borrow up to 10 books for one month.

The library holds:

- 40,000 volumes on art, architecture and related topics
- 300 periodical titles (reference only)
- a special collection of 2,000 16th - 19th century architectural books
- a product information collection maintained by the Royal Institute of British Architects (all now online)

For further information about the Faculty library including opening times see: <http://www.aha.cam.ac.uk/Library>, and <http://libguides.cam.ac.uk/architecture-art>

For information about the University Library (UL) and other University and College libraries see: <http://www.lib.cam.ac.uk/>

The Perfect Desk is an introductory film to help you make sense of the libraries at the University of Cambridge.

See: <http://www.youtube.com/watch?v=3hjzNNvaELA&feature=youtu.be>

## IT

The IT resources available to staff and students of the Faculty are managed by the Faculty Computer Officer, Stan Finney. If you have any specific questions, please contact Stan on:

- Telephone: 01223 332973
- University Mobile: 07879 116900 (internal 51900)
- Email: [swf23@cam.ac.uk](mailto:swf23@cam.ac.uk)

Students and staff have access to a range of IT resources within the Faculty. The Faculty's own network is connected to the Cambridge University Data Network (CUDN), which allows access to the local University Intranet and the Internet. The network provides 1Gbit connections to all "wired" desktop/laptop computers. In addition, the Faculty operates its own wireless network (AHA), alongside UniofCam and EduRoam, which covers the whole of Scroope Terrace and the History of Art Graduate Centre at 4A Trumpington Street. Access to the AHA wireless network can only be obtained using a username and password specific to the Faculty.

### **Servers and File Storage**

A number of file servers provide in excess of 96 Terabytes of data storage space. These servers also provide for centralised administration of backups, user accounts, printing and the Citrix application servers.

Although we don't provide a dedicated Computer Room or suite, we do offer students access to our Virtual Computer Room. In effect, this allows staff and students to connect to the system and run one of a number of software packages. Although these applications appear to be running on the desktop or laptop, they are in fact running on the Citrix Application Servers. This system can be accessed anywhere in the world, providing there is a reasonable speed link in between.

The Faculty runs a heterogeneous network of servers, workstations, thin clients and networked printers. Users in the Faculty are welcome to use the thin client terminals in the Library, or to bring their own laptop into the department. If you would like to use your own computer at Scroope Terrace there are some things you must do first.

All users must also undertake to take all reasonable steps to keep their operating system and anti-virus software up-to-date whilst their computer is connected to the Cambridge network. Cambridge has not been immune to the recent worm/virus outbreaks on the Internet and so routine computer maintenance is in everybody's interests.

You should ensure that your computer has an RJ45 Ethernet connector or wireless networking support (802.11a/b/g/n) and that your computer can accept the European standard 220-240V voltage. It may also be necessary to invest in a travel adaptor for a British standard plug with three square pins.

Disclaimer: Whilst we will do everything we can to support your computer, we cannot guarantee to support particularly exotic pieces of hardware and software.

### **Printing/Plotting/Photocopying**

The Faculty has a number of black and white and colour photocopiers, printers and plotters that are available to staff and students. Laser copier/printers offer page sizes from A5 to A3 and for larger sizes a range of plotters are also available for use in the self-service Reprographics Room in the basement of the Faculty. Print credit must be added to a user account before printing can take place via the Faculty Office.

### **3D Printers and Laser Cutters**

The Faculty also owns a ZCorp Z350 and two UP! Box 3D printers as well as two Laser Cutters that students have access to.

The 3D printer enables students to print models that they may have developed on the computer as solid models. The two laser cutters, powered by 50watt CO2 tubes, can cut a range of materials and thicknesses. Please note however, that we do exert some control on exactly what can be cut for health and safety reasons.

### **Classrooms/Lecture Rooms**

All classrooms and lecture rooms are furnished with permanently mounted digital data projectors and in addition, some rooms have slide projectors installed. The Faculty also has a number of mobile data projectors for use elsewhere in the Faculty.

### **Application Software**

A number of application packages are utilised by students during their time with us. The mix and range of software is reviewed each year during the long vacation, but currently these include:

- Microsoft Office (Microsoft Word, Excel, PowerPoint, Publisher)
- Microsoft Project
- Sketchup Pro 2016

- Bentley MicroStation
- Illustrator
- Acrobat Professional
- Photoshop
- InDesign
- IES VE
- Autodesk Ecotect
- TRNSYS
- SPSS
- ARCGIS

Some packages are made available for the students to install on their own laptops; others are accessible via the Faculty's Application Servers.

### **Virtual Private Network (VPDN)**

If you haven't already done so, you may want to get a VPDN set up on your computer. This allows you to access Cam-domain restricted online resources remotely. For information see: <https://help.uis.cam.ac.uk/devices-networks-printing/remote-access/uis-vpn/vpn-introduction>

### **The Slide and Digital Image Resource**

The Slide Room is a valuable resource for both Architecture and History of Art lecturers. It houses approximately 60,000 slides covering both areas of study. Primarily for the use of lecturers within the Faculty (students do not have access unless supervised by a member of staff), it provides visual material for some 30-35 lectures a week. Occasionally external loans are made to university staff in other faculties.

### **The University Library (UL)**

The University Library is a national copyright library. It additionally houses many foreign books and rare material. It has an extensive collection of books and journals relating to history of art and architecture, as well as bibliographic databases. The UL also networks a wide range of electronic resources which are listed on the UL webpage. The online catalogue, IDiscover, provides access to the records of the UL and many other University libraries, and you can request the speedy cataloguing of new acquisitions which are not yet online.

For information about joining the library see: <http://www.lib.cam.ac.uk/using-library/joining-library>

There are guided introductions to the UL's collection and facilities, as well as a full programme of user-education courses, covering both their collections and online resources. Some sessions are of general interest and are open to all readers, while

others focus on specific subject areas and are aimed primarily at graduate students. For further information see: <http://training.cam.ac.uk/cul/theme/>.

Students should identify the courses most relevant to their research by consulting the website, but those which all new graduate students are encouraged to attend include:

- Library Induction.
- Library Catalogues.
- IDiscover (the UL catalogue) Hands-on.
- Introduction to electronic information resources I: accessing CUL e-services.
- Introduction to electronic information resources II: basic information searching skills.
- Introduction to electronic journals.

The UL administers an inter-library loan system and it can take several weeks for the requested book to arrive. It is therefore important to determine as soon as possible if you require inter-library loans, and to begin preliminary bibliographical work on an MPhil dissertation in the Michaelmas Term.

For information about the University Library and other University and College libraries see: <http://www.lib.cam.ac.uk/>

## **ArcSoc**

ArcSoc is the student Architecture Society. It provides a forum for students of architecture to pursue extra-curricular activities ranging from painting to parties, from life drawing to lectures. ArcSoc has its own pages on the Department's website where details of lectures and events are posted. ArcSoc is wholly supported by membership dues and sponsorship. <http://www.arcsoc.com/>

## **Scroope**

The Department's journal Scroope has been running since 1989. If you are interested in becoming a part of the Scroope editorial team, please send an e-mail to [scroope@aha.cam.ac.uk](mailto:scroope@aha.cam.ac.uk) with 'Editorial Board Scroope' in the subject line. Running a journal is very time consuming, so the editorial team is looking for people who have the energy to commit to the job. Our meetings can sometimes run up to three or four hours, but it is a very rewarding experience. You will learn about printing, publishing and distributing a small journal and learn what it means to be a content editor, copy-editor, and/or graphics editor. <http://www.scroopejournal.com/>

## **Information for New Students**

<http://www.admin.cam.ac.uk/students/gateway/new/index.html>

## **Student Gateway (more information)**

<http://www.admin.cam.ac.uk/students/gateway/>

## **Information for International Students**

<http://www.admin.cam.ac.uk/students/gateway/international/>

## **University of Cambridge *Reporter***

The *Reporter* is published online on Wednesday each week during Full Term. It carries notices of all University business, Discussions, and Graces; Council and General Board decisions; proposals for changes in regulations for examinations; as well as brief information on awards, appointments, and job vacancies.

See: <http://www.admin.cam.ac.uk/reporter/>

## **Part II: Graduate Administration – People & Policy**

### **Director & Deputy Director of Graduate Studies**

The Director of Graduate Studies is Dr Minna Sunikka-Blank ([mms45@cam.ac.uk](mailto:mms45@cam.ac.uk)) and the Deputy Director of Graduate Studies is Dr Nick Simcik Arese ([nls37@cam.ac.uk](mailto:nls37@cam.ac.uk)). They are responsible for ensuring that members of your supervisory team are assigned and that necessary arrangements for academic and administrative support are available to you. They are supported by a Departmental Graduate Committee.

The Directors of Graduate Studies are a source of advice if you experience difficulties that cannot be resolved directly, and may act as intermediaries between you and your Supervisor if difficulties arise. If you experience difficulties with your Supervisor you are expected to raise these with the Director of Graduate Studies without delay.

For detailed information about the directors' role and responsibilities see the Code of Practice for Research Students: <https://www.cambridgestudents.cam.ac.uk/new-students/manage-your-student-information/graduate-students/code>

### **Faculty Graduate Secretary**

The Graduate Secretary is Mrs Claire Hogg ([graduate.admin@aha.cam.ac.uk](mailto:graduate.admin@aha.cam.ac.uk)). Claire is responsible for the graduate administration of the Faculty and the Degree Committee. She works with the Faculty Graduate Assistant and other administrative staff in order to realise this.

### **Faculty Graduate Assistant**

The Graduate Assistant is Miss Pilar Alonso ([graduate.admin@aha.cam.ac.uk](mailto:graduate.admin@aha.cam.ac.uk)). She works closely with Claire to realise graduate administration related to the Faculty and Degree Committee.

### **Chief Secretary of Architecture**

The Chief Secretary for the Department is Ms Sue Luxon ([sl621@cam.ac.uk](mailto:sl621@cam.ac.uk)). Sue co-ordinates all the academic activities of the Department, including course materials, examinations, servicing of Department meetings, production of material for external assessments, production of documentation for central University administration, and much more besides, as well as acting as personal assistant to the Head of Department. She is also responsible for dealing with public and student enquiries, and organising Departmental events.

## **Principal Supervisor**

Your main Supervisor is known as your Principal Supervisor and is the person appointed by the Degree Committee to oversee and help you with your study. If your research project is interdisciplinary you may also be appointed other supervisors who may or may not be authorised to formally report on your progress. For detailed information about your supervisor's role and responsibilities see the Code of Practice for Master's Students: <https://www.cambridgestudents.cam.ac.uk/new-students/manage-your-student-information/graduate-students/code-practice-masters-students>

## **Advisor**

The Advisor is appointed by the Department or Faculty. S/he need not be in exactly the same research area as the student and Supervisor, nor necessarily in the same Department or Faculty, but should be able to bring sufficient expertise to the team in order to act as a second point of contact for academic advice for the student (after the supervisor). For detailed information about your advisor's role and responsibilities see the Code of Practice for Master's Students: <https://www.cambridgestudents.cam.ac.uk/new-students/manage-your-student-information/graduate-students/code-practice-masters-students>

## **Graduate Representatives (Grad Reps)**

At the beginning of each Michaelmas Term the graduate students elect a representative for each Masters' programme and the PhD degree respectively. It is the graduate representative's remit to represent the concerns of their cohort and express them formally.

## **Degree Committee**

The Degree Committee for the Faculty of Architecture & History of Art is the highest tier of administration for graduate matters within the Faculty. The conduct and governance of each graduate course falls under the oversight of the Degree Committee. It is also responsible for the academic oversight of all graduate students and their supervisors. The Degree Committee reports to the University's Board of Graduate Studies on the following:

- Recommending candidates for admission setting suitable entry criteria and special conditions;
- Students' academic progress;
- Recommending continuation to a research degree from a Master's or other course;

- Recommending registration of a probationary research student to the PhD or other qualification;
- Recommending candidates for applications for allowances (such as intermission, or leave to work outside Cambridge) and exemptions;
- Recommending candidates for qualifications other than the MPhil and MSt (on the recommendation of the Examiners concerned);
- Approving MPhil and MSt students for their degrees;
- Appointment of supervisors and examiners.

## **Board of Graduate Studies**

The Board of Graduate Studies is charged with the admission, registration and approval of the University's graduate students, amongst other things. The Student Registry provides administrative support for the Board of Graduate Studies, located at 4 Mill Lane. For more information please visit the website: <http://www.admin.cam.ac.uk/offices/gradstud/about/>

## **College Graduate Tutor**

It is your College's responsibility to provide pastoral support and to act as your ambassador in pastoral matters (this is not the role of your Supervisor). The tutorial office will include an academic member of staff who will usually be called the Graduate Tutor and an administrative member of staff who will be usually referred to as a Graduate Secretary. A guide outlining what you can expect from your College is available: <https://www.studentwellbeing.admin.cam.ac.uk/college-pastoral-support>

## **The Graduate Union (GU)**

The GU is the University-wide representative body for graduate students at the University of Cambridge. The GU is run by a Committee of elected officers and its focus is on four key areas:

- Representation
- Facilities / Services
- Welfare / Support
- Events

The GU offers a thesis binding service: <http://www.gradunion.cam.ac.uk/>

## **Code of Practice for Graduate Students**

If you are undertaking study towards a graduate qualification, it is your responsibility to ensure you understand and comply with the regulations of the University. You will

be asked to sign a copy of the Code to confirm that you have read and discussed this with your Course Director (Page 4). The Code of Practice sets out the University's guidelines: <https://www.cambridgestudents.cam.ac.uk/new-students/manage-your-student-information/graduate-students/code-practice-masters-students>

## **University's Statutes & Ordinances**

The University's law relating to graduate students can be found in Chapters VI & VII of the University's Ordinances: <http://www.admin.cam.ac.uk/univ/so/>

## **Residence Requirements**

Graduate students must keep a specific number of terms of residence and of research, as defined by the Statutes and Ordinances. It is accepted that due to the nature of graduate study, there may be times in which you will need to be away from Cambridge.

The academic year in Cambridge is divided into three terms, Michaelmas, Lent, and Easter (see for term dates <http://www.cam.ac.uk/about-the-university/term-dates-and-calendars>). Research students are expected to be in attendance and actively working on their research between terms, except during periods of holiday agreed with their supervisor, not normally exceeding 8 weeks in a 12-month period.

<http://www.cambridgestudents.cam.ac.uk/new-students/manage-your-student-information/graduate-students/terms-study>

## **What to do if you need to take time out (intermission of study)**

There are all kinds of reasons why you may have to take time off from your research; for example, medical reasons, caring duties, an emergency situation at home and maternity or paternity leave. It is important that you make a formal application to take time off in consultation with your Supervisor and College Graduate Tutor. You may request to intermit for a maximum period of three terms.

If you are making your application on medical grounds, you will need to include a note from your medical doctor, counsellor or your College Graduate Tutor. It is really important that you talk about any circumstances which are preventing you from working effectively with one or more of these staff from your graduate team.

Please note that it is not possible to apply for, and have agreed, retrospective terms of intermission, or to apply for intermission for the purpose of taking employment. Full information about intermission, its consequences and how to make an

application is available from: <http://www.cambridgestudents.cam.ac.uk/your-course/graduate-study/your-student-status/intermission>

If you hold a visa to study, then you must consider the potential implications of applying for intermission on your visa. Please refer to the additional information for Tier 4 Sponsored Students on the above link.

## **What to do if you need to Work Away from Cambridge**

In order to meet the Higher Education Funding Council (HEFCE) requirements, immigration regulations and in order to be safe, the University needs to be able to report the whereabouts of all its graduate students. If you are going away, please let your College Graduate Tutor, Supervisor and friends and family know.

If you are going away to undertake research work as opposed to a holiday and will be away for more than two weeks, you will also need to apply for leave to work away via CamSIS and complete the Faculty's Risk Assessment Form. The Risk Assessment Form needs to be uploaded to your application for leave to work away once it has been signed off by the Head of Department.

Please do not travel unless your leave to work away has been approved by the University.

It is really important that you think carefully about the risks to your safety while travelling away from Cambridge, and the measures you need to take to minimise these risks. Some destinations are not as safe as others. You must seek travel advice from the Foreign Office before you make your plans. You will also need to check for information whilst away. Foreign travel advice is available from: <https://www.gov.uk/foreign-travel-advice>.

- If you wish to return home to write up your thesis you will need to apply to work away. In these instances you will not be required to submit a risk assessment or acquire insurance.
- When you have submitted your dissertation and are waiting for the outcome of your examination, you are not required to apply to work away for this period. If you are later notified that you are required to undertake further work to your dissertation, such as corrections, revisions etc. you are expected to apply to work away if not in Cambridge
- You do not need to apply to work away for short periods, such as attending conferences.
- Students are not able to apply to work away for the purpose of employment. If you wish to take a period of employment you must apply to be removed from the Register. For further information see: <http://www.cambridgestudents.cam.ac.uk/your-course/graduate-study/your-student-status/removal-register>
- Applications are considered on a case by case basis and must have the support of your Supervisor, Department, Degree Committee and College.

You must also seek the permission of your sponsor if you are funded by a sponsor.

- If you are granted permission to work away you are considered still to be under the active supervision of your Cambridge Supervisor unless alternative arrangements have been approved.

For information on working away, Tier 4 and how to apply

see: <http://www.cambridgestudents.cam.ac.uk/your-course/graduate-study/your-student-status/work-away-cambridge>.

You can download a copy of the Faculty's Risk Assessment Form

from: <https://www.arct.cam.ac.uk/current-students/information-for-graduate-students-1/information-for-graduate-students/-1>

If you have any questions about working away

email: [graduate.admin@aha.cam.ac.uk](mailto:graduate.admin@aha.cam.ac.uk).

## **Travel Insurance**

You will need to show that you have adequate insurance for any period of working away unless:

- You are remaining in the UK
- You are applying to return home to write up your thesis or to undertake further work to your thesis, such as corrections.

Further details on the University's insurance scheme can be found

at <http://www.admin.cam.ac.uk/offices/insurance/travel/students/bgs/index.html>

## **University Fieldwork Funds**

If you are funded by a Research Council you may be eligible to apply for additional fieldwork funds from them. If you require additional funding to complete fieldwork and have been granted permission from the Student Registry to work away, you may be eligible to apply for Faculty Fieldwork Funding. You may also be eligible to apply for funding from the Kettle's Yard Travel Fund which is also administered by the Faculty. Information about the fieldwork funding schemes will be forwarded to all eligible students during the Michaelmas Term via email.

Successful applicants will be required to make use of their grants before the end of the year in question unless the Professor of Architecture waives this requirement.

For further information and application forms

see: <https://www.arct.cam.ac.uk/current-students/information-for-graduate-students-1/information-for-graduate-students>

## **Updating Personal Information and your Student Status**

For information on how to manage items such as changing your name, changing your mode of study or intermission please

see: <http://www.admin.cam.ac.uk/students/studentregistry/current/graduate/gradprofile.html>

## **Funding**

Once you are registered as a student at Cambridge, there are very few scholarships available. Graduate Students are expected to have their finances in place before they start their course, and will have provided a financial undertaking to confirm this. Therefore most funding opportunities at Cambridge are only available to applicants who are about to start a new course. However, small part-cost bursaries may be available to current graduate students from colleges and departments for fieldwork, hardship and conferences etc. <http://www.student-funding.cam.ac.uk/>

## **Working While You Study**

Masters students are generally expected not to work during term-time. Students should consult their Faculty and Department for further details regarding official vacation dates.

For further information please see: <http://www.cambridgestudents.cam.ac.uk/your-course/graduate-study/your-student-status/working-while-you-study>.

## **Student Problems, Issues, and Complaints**

It is important to get *early* advice about problems or concerns as many issues or complaints may be resolved readily and promptly with the support, involvement or intervention of a relevant member of Faculty staff (or a Tutor or other College officer), at the 'local' level. Students wishing to pursue a matter of formal complaint are therefore encouraged in the first instance to consult, discuss the issues with, and seek the advice of, for instance: Director of Studies, Director of Undergraduate Studies/Course Coordinator/Year Coordinator etc.,

The University's Office of Student Conduct, Complaints and Appeals (OSCCA) provides procedural advice, case handling and oversight of a number of student procedures including:

- student complaints
- review of examination results
- fitness to study
- harassment and sexual misconduct
- discipline

OSCCA has published an overview of the formal procedures available to students – <https://www.studentcomplaints.admin.cam.ac.uk/home/overview-student-conduct-complaints-and-appeals>.

### **Student Complaints Procedure**

If you are unhappy with the experience you have received from a University department, faculty, or service, the University has established a Student Complaint Procedure ([www.studentcomplaints.admin.cam.ac.uk/student-complaints](http://www.studentcomplaints.admin.cam.ac.uk/student-complaints)) for you to use in order to try and resolve the situation. All complaints are treated seriously and are handled sensitively. We understand that it can be a stressful experience to submit a complaint, particularly when it is about an individual staff member, e.g. a Supervisor, Director of Studies, or other teacher. We recommend that you seek support and advice before submitting your complaint; depending on your circumstances this could be from a member of Faculty staff, a College Tutor, or the Students' Unions' Advice Service at [www.studentadvice.cam.ac.uk](http://www.studentadvice.cam.ac.uk).

The Student Complaints [Procedure](#) provides for a registered student to express dissatisfaction, either about the University's action or lack of action, or the standard of service provided by or on behalf of the University by Faculties and Departments. Grounds for complaint may include: academic provision (course content; resources; facilities; or information provided about the course); standards of service from the Institution; the behaviour of University staff. The procedure has three stages: Local Resolution, Formal Resolution, and Review. There is a quick guide to the Procedure at [https://www.studentcomplaints.admin.cam.ac.uk/files/student\\_complaint\\_procedure\\_guide.pdf](https://www.studentcomplaints.admin.cam.ac.uk/files/student_complaint_procedure_guide.pdf).

Where appropriate, you should attempt to raise a concern with the responsible staff member. If you do not feel comfortable raising the matter with this person then you should speak or write to the designated 'Responsible Officer', who will respond to complaints at the informal, local resolution level (Step 1). Within the Faculty of Architecture and History of Art the Responsible Office is the Faculty Manager (E-mail: [Andrew.Bennett@aha.cam.ac.uk](mailto:Andrew.Bennett@aha.cam.ac.uk). Tel. 01223 (3)32593). (Alternatively, informal complaints may be raised with the Head of Department concerned.) You should raise your complaint as soon as it occurs, or at least *within 28 days* of the matter arising. Many issues can be resolved easily and quickly if you communicate your problem to someone.

### **Examination Review Procedure**

The University has robust policies in place to ensure that examination results are accurate and reliable. However, there may be circumstances where something unusual happens during the examination and a student wants to check that the Examiners were aware of the circumstances and that they have been taken into account. The principal grounds for an examination review are: a procedural irregularity in the examination process that has adversely impacted the candidate's examination results; demonstrable bias or the perception of bias within the examination process. The University has procedures in place to deal with this possibility: [www.studentcomplaints.admin.cam.ac.uk/examination-reviews](http://www.studentcomplaints.admin.cam.ac.uk/examination-reviews).

You may request that your examination results are reviewed using the Examination Review Procedure ([www.studentcomplaints.admin.cam.ac.uk/examination-reviews](http://www.studentcomplaints.admin.cam.ac.uk/examination-reviews)). You can seek advice from your College Tutor or relevant Faculty/Departmental staff, or from the Students' Unions' Advice Service.

### **Part III: MPhil in Architecture & Urban Studies (MAUS)**

The MPhil in Architecture and Urban Studies (MAUS) is a programme of advanced study on modern and contemporary architecture and the continued development of cities around the world. Students from a variety of academic backgrounds work in an interdisciplinary environment with urbanists, environmental specialists, architectural theorist and historians, as well as with design practitioners. In such an environment, students will explore a wide range of ideas, research methods and theoretical approaches in order to undertake critical and rigorous analysis of issues relating to both architecture and the challenges and complexity of the world's rapidly changing cities. The course entertains close connections with the Masters in Architectural and Urban Design enabling research-driven dialogue with designers.

The course offers a flexible structure that is tailored to the needs of individual student's research interests. Seminars and lectures are organised along two basic strands: 1) one focuses on the socio- political and cultural context of architecture and the city with an approach rooted in the humanities and social sciences; 2) the other focuses on various forms of architectural and urban sustainability, as well as environmental design from a more technical point of view. In the Michaelmas Term each strand has a core seminar. Students are encouraged to participate in both strands, although they ought to focus on one only. In the Lent term there is choice of more specialist seminars within both streams. Students are actively encouraged to explore issues across these basic disciplinary boundaries. In the Easter Term, students write a dissertation on a topic of their choice. Supervisors will assist in the development of the dissertation, yet students can also reach out to other specialists in Architecture and throughout the university to meet their research objectives. The course asks students to expand upon their own experiences by pursuing research in their areas of interest.

## **Research Themes**

There is a range of activities in the Department of Architecture and throughout the University that will develop students' research interests and meet the programme outcomes. These include the Departmental History and Theory Seminars, the City Seminars (organised by CRASSH), as well as Martin Centre and ARCSOC Talks. Students may choose to attend units on the MPhil in Sustainable Engineering (Department of Engineering), with whom we have a reciprocal arrangement. MAUS students are welcome to be involved with MAUD in reviews and discussions. The programme includes research skills training designed specifically for the needs of our students. In the past, MAUS students have attended seminars in the Departments of Geography, Land Economy, Politics and International Studies, and Sociology. Others have attended Modern Languages and discussions in the Centre for Latin American Studies. In other words, MAUS students have multiple opportunities to benefit from all the opportunities that the University of Cambridge offers to pursue graduate studies.

Students receive specific guidance and general seminars on research methods, the use of libraries, and writing techniques. An initial selective bibliography is provided at the start of the course, which is supplemented by guidance on further reading in the seminars and supervisions. Guidelines on coursework essays and dissertations are given in general terms and more specifically in supervisions. Research methods, techniques and analytical skills are developed through the workshops and

coursework. The course also provides an opportunity for students to expand upon their own experiences by pursuing research in their areas of interest.

## **Teaching**

Teaching is delivered through combination of lectures, seminars and workshops, which are supported by individual supervisions. Individual supervisions are an essential part of the programme, they help to assist, direct and monitor progress of students' work while, at the same time, help to provide continuous feedback throughout the course.

The weekly lectures and seminars, plus additional research workshops, provide a framework to explore a variety of research approaches from a range of relevant disciplines available in the Department. Students receive general seminars and specific guidance on research methods, the use of libraries, and writing techniques. An initial selected bibliography is provided prior to the start of the course to allow students to begin their preparation. Upon arrival to Cambridge, the bibliography is supplemented by guidance on further reading in the seminars and supervisions. Guidelines on coursework essays and dissertations are given in general terms and more specifically in supervisions. Research methods, techniques and analytical skills are developed through the lectures, coursework and a dedicated training course.

The teaching methodology also includes individual research activities, oral presentations and written essays to encourage students to identify and solve problems. These activities are supported by regular feedback sessions and in supervisions. This methodology, particularly through specialist supervisions, is built upon when the student embarks on their independent dissertation/ design thesis research programme.

Students are also offered a series of hands-on workshops on computer modelling, physical laboratory testing and receive guidance on the use of environmental sensors and loggers.

The course is intense and demands effective time management.

## **Seminar Timetable**

You will receive a copy of the MPhil seminar programme at the beginning of the Michaelmas Term. An electronic copy will also be available on Moodle.

## **Monitoring your Progress**

### **Faculty Logbook and Researcher Development Log**

Every graduate student keeps a Faculty Logbook in which they record a personal programme of training each year. The Faculty Logbook is also to be used to detail the student's aims and objectives, the dates of meetings with supervisors, any conferences, lectures, classes, or courses which they attend, and the skills which they have acquired.

You can download a copy from: <http://www.arct.cam.ac.uk/current-students/information-for-graduate-students-1/information-for-phd-students/course-documentation>

Please keep this on file (with regular backups) apart from the pages which your supervisor needs to sign, which you should in principle print out and take to every supervision meeting. Supervisors should be reminded to sign these pages after each meeting, to ensure that regular meetings take place, and to keep a record of what is covered on each occasion. At the end of each year you will be asked to print out the complete Faculty Logbook, attach the signed supervision pages, and submit it for review. It also serves as a useful repository of your research activity for your curriculum vitae, along with publications, awards and other honours achieved.

In addition to the Faculty Logbook, every graduate student will also keep a Researcher Development Log in which they record a personal programme of researcher development training each year. Your development log is available online at <https://www.rdlog.admin.cam.ac.uk/>. Please see later in the Handbook for details on Researcher Development.

### **Formal Reporting**

Supervisors submit at least one formal report each term on their students via the Cambridge Graduate Supervision Reporting System (CGSRS).

You will be able to view your reports via your self-service account in CamSIS.

### **Review of Work**

Candidates will be asked to present their work once a term for review. The dates are as follows:

Michaelmas Term – Thu 22<sup>nd</sup> November 2018

Lent Term – Thu 7<sup>th</sup> March 2019

Easter Term – Thu 9<sup>th</sup> May 2019

The reviews are intended to be a constructive events which will benefit the writing up of both essays or other exercises and the dissertation. The review also presents candidates with the opportunity to test out ideas with experts in a supportive forum.

Whilst candidates are not awarded marks for the review of their work, it is expected that their experience will impact on the work they submit for examination.

### **Examination**

The scheme of examination for the one-year course of study in Architecture and Urban Studies for the degree of Master of Philosophy shall consist of:

- three essays or other exercises, each of between 3,000 and 5,000 words

- a thesis, of not more than 20,000 words in length, excluding appendices and bibliography, on a topic approved by the Degree Committee for the Faculty of Architecture and History of Art

The examination may, at the discretion of the Examiners, include an oral examination on the thesis or on the general field of knowledge within which it falls.

### **Assessors' Reports**

You will receive a copy of your assessors' reports for essays and dissertations which will include a grade band in which your mark range within which your average marks fall.

### **Essays (or other exercises)**

Three essays or other exercises, each of between 3,000 - 5,000 words including foot and endnotes but excluding the bibliography, on topics approved by your supervisor and the Faculty will be presented for examination. You will need to submit two bound paper copies to the Faculty's Reception, together with an electronic copy uploaded to Moodle (you will be instructed on how to do this). Printed copies must be exactly the same as the electronic copy, no changes are permitted. The submission dates and times are as follows:

Essay 1 – Thu 6th December 2018 at 12noon  
 Essay 2 and 3 – Thu 21<sup>st</sup> March 2019 at 12noon

The three essays or other exercises together represent 50% of the total mark.

### **Essay Format**

Essays should be A4 in size, portrait in orientation, typed and bound. The title page of each essay should contain the following information: Name, College, Date, Title of Essay (e.g. "Essay 2: Technical Analysis") number of words *and the following words*:

*"An essay submitted in partial fulfilment of the requirements for the MPhil examination in Architecture & Urban Studies".*

Essays should be bound with plastic comb or spiral binding with a sheet of acetate at the front and a cover sheet at the back. A statement of the number of words must be included at the front of the essay. Candidates should note that the attention of assessors will be drawn to over-long essays.

Remember to:

- allow enough time for formatting, printing and binding – it will take longer than you expect it to
- produce copies of the essays for yourself

## **Dissertation**

### **Appointment of Assessors for your Dissertation**

You will be requested to submit your dissertation topic to the Graduate Office by email by 1<sup>st</sup> March 2019 in order for the Degree Committee to appoint assessors for you (at least one of your assessors must be external to the Department).

### **Submitting your Dissertation**

The thesis must be a connected account of work written by the candidate, and must comply with the General and Special Regulations for the MPhil programme. The University's regulations for the MPhil in Architecture and Urban Studies which can be found in Chapters VI and VII of the University's Ordinances.

For further information see: <http://www.admin.cam.ac.uk/univ/so/>

You will need to submit two bound copies of your dissertation by 12noon on Thursday 23<sup>rd</sup> May 2019 to the Faculty's Reception together with a Certificate of Dissertation Submission and your Logbook which will need to be signed off by your Supervisor.

The Certificate of Dissertation Submission can be downloaded from:  
[https://www.student-registry.admin.cam.ac.uk/files/mphil\\_bgs\\_certificate\\_of\\_submission.pdf](https://www.student-registry.admin.cam.ac.uk/files/mphil_bgs_certificate_of_submission.pdf)

You will also need to upload one electronic copy of your thesis via Moodle and will be instructed on how to do this.

An oral examination (viva voce) on the dissertation and on the general field of knowledge within which the work submitted falls may be required. Students must remain in or be prepared to return to Cambridge for such oral examinations, which will be held in June.

### **Format, Presentation and Binding**

The dissertation should not be of more than 20,000 words and represents 50% of the overall mark. The word count includes foot and endnotes but excludes the bibliography. Permission to exceed the word limit will not be granted. The attention of assessors and the Degree Committee will be drawn to over-long dissertations. Any appendices will require the formal permission of your Supervisor who may consult the Degree Committee.

You are advised to carefully check your thesis for typing errors, spelling mistakes and poor grammar or written expression. The thesis, apart from quotations and recognised technical formulae, must be written in English. Secured inside the thesis there must be:

- a title page containing the thesis title,

your name as it appears on your passport,  
your College,  
the Date (optional) and  
a Declaration stating: This dissertation is submitted in partial fulfilment of the requirements for the MPhil examination in Architecture & Urban Studies  
a statement of word length

- a declaration page in the Preface stating: This dissertation is the result of my own work and includes nothing which is the outcome of work done in collaboration except where specifically indicated in the text.

A brief formal acknowledgement should be made to persons from whom information or suggestions have been received.

You will also need to upload one electronic copy of your thesis via Moodle and will be provided with information on how to do this

### **The dissertation must:**

- be written in English, apart from quotations and recognised technical formulae
- be thoroughly checked to ensure clear, formal English has been used throughout and that there are minimal typing errors and/or spelling mistakes
- be typescript on A4 paper
- be portrait format
- use single sided or double-sided printing
- use one-and-a-half spaced type
- of a minimum font size for text of 11pt (12pt is preferred) and 10pt for footnotes. Easy to read sans serif fonts are preferred for example, Arial,
- not exceed 20,000 words
- only include appendices approved by your supervisor
- bound with plastic comb or ring binding, with an acetate sheet at the front and a cover sheet at the back.

Any photographs or other illustrations should be scanned or printed into the text. Originals (photocopies may not be used), must be secured permanently inside the thesis (not by use of adhesive tape).

Further information and guidance about printing and soft binding your dissertation can be found on the website of the Graduate Union.

See: <http://www.gradunion.cam.ac.uk/>

### **Bibliography and Footnotes**

The dissertation should be provided with a bibliography of works actually consulted and, where appropriate, a table of bibliographical abbreviations. Footnotes should be used to give precise reference to particular documents or publications, and to expand points made in the text. References to books and periodicals should follow a recognised system such as that used in the Journal of the Warburg and Courtauld

Institutes or the RIBA Dissertation Handbook. Whichever system is adopted, consistency is essential.

## Illustrations

Illustrations (whether photographs, photocopies, plans or original drawings) are either to be digitally incorporated in to the print out of the text, mounted securely with the typescript or bound separately if their size makes mounting inconvenient or impossible. Care must be taken that every illustration has a caption and number to correspond with the reference in the text, and that the pages of text are numbered consecutively. A page of contents and a list of figures/plates should be included.

## Penalties for Late Submission of essays (or other exercises) and dissertation

An extension of a submission deadline will only be granted in exceptional circumstances. A letter from your Graduate Tutor and a medical certificate may be requested. Please note that extensions are not granted for computer or printing problems. You do need to factor in time to account for the physical production of the dissertation. Penalties for late submission are as follows:

- up to 24 hours late after deadline: 5 mark deduction
- up to 48 hours late after deadline: 10 mark deduction
- up to 72 hours late after deadline: 15 mark deduction

Work submitted after 3 days will not be accepted, and the work will be recorded as a Fail.

## Marking Scheme

Students need to achieve at least 60% in order to pass the degree and 75% in order to pass with distinction. If students have applied to read for the PhD degree in the Department of Architecture, they will need to achieve at least 70%. Continuation is also subject to the approval of the research topic and the availability of a University Teaching Officer to supervise your work within the Department.

The marking scheme for the MPhil examination is

<b>75% +</b>	<b>Distinction</b>
<b>68 – 74%</b>	<b>Good Pass</b>
<b>60 – 67%</b>	<b>Pass</b>
<b>55 – 59%</b>	<b>Marginal Fail (viva required)</b>
<b>Below 55%</b>	<b>Fail</b>

## Marking Criteria

**75 % + Distinction** Uplifting to read, high level of originality in thought and expression, dense and relevant as to facts and showing excellent judgement in their selection. Full command of methodology and appropriate analytical and predictive techniques and their deployment in advancing a very

clear and coherent argument. Excellent grasp of principles, very well written, argued, very clearly illustrated, all calculations correct. Suitable for publication, with minor amendments.

**68 - 74%  
Good Pass** Original in thought or expression. Relevant as to facts and showing good judgement in their selection. Good command of methodology and appropriate analytical and predictive techniques deployed as necessary in advancing a clear and coherent argument. Very good grasp of principles, well written, clearly illustrated, all calculations correct.  
*Please note that any candidate hoping to continue to doctoral study must obtain an overall average of at least 70%.*

**60 – 67%  
Pass** A satisfactory over-all knowledge of the field and the existing literature, reasonably well presented and expressed. Awareness of appropriate methodology and analytical techniques deployed meaningfully to support a credible argument. Reasonable grasp of principles at least in the presentation of the central issues, if some errors in calculation.

**55 - 59%  
Marginal  
Fail** An uneven performance, and less than convincing argument, or keeping up a steady level of conventional wisdom with little or no original contribution and some confusion of facts. Inaccuracies in calculation.

**Below 55%  
Fail** Seriously incomplete work showing little understanding of the methods of argument. Calculations attempted but resulting in incorrect answers. Failure to find an appropriate focus at graduate level.

You must pass both components (essays and dissertation) of the examination. Candidates obtaining an average of below 60% in either the essays or the dissertation will be required to attend an oral examination.

It is expected that the examination process will be concluded by the end of June and your result will be communicated to you by the Secretary of the Degree Committee after the Degree Committee's July meeting.

### **Approval of Degree**

Following the Exam Board, your assessors' reports are sent to your Degree Committee for consideration at their earliest meeting. The Degree Committee will email you its decision within three days following this meeting.

Please note that your degree is not unconditionally approved until the Degree Committee has formally confirmed this in writing.

The length of time it takes for approval will differ according to the Degree Committee's schedule of meetings which take place during term time.

The dates of the meetings of the Degree Committee and Board of Graduate Studies

as well as Congregation dates are available from: <http://www.student-registry.admin.cam.ac.uk/about-us/board-graduate-studies/meeting-dates-and-minutes>

## **Conferment of Degree**

Following unconditional approval for your degree you may choose:

- To have your degree conferred (granted) at one of the University's Congregations (graduation ceremonies)
- To delay receiving your degree until a time that is convenient for you and your family
- To receive your degree without attending a ceremony - known as receiving the degree in absentia

You will need to contact your college Praelector or tutorial office to arrange any of these options: <http://www.cambridgestudents.cam.ac.uk/your-course/examinations/graduate-exam-information/after-examination/degree-approval-and-conferment>

For information on Degree Ceremonies

see: <http://www.cambridgestudents.cam.ac.uk/your-course/graduation-and-what-next/degree-ceremonies>

If you are being sponsored by the University on a Tier 4 student visa it is important that you know the date your visa expires, as the time scale from submission to approval can be a lengthy one.

The stages following submission include time for your assessors to receive, read and write their independent reports, arrange and undertake your viva and write their joint report. Results are then considered at a meeting of your Degree Committee.

You are not approved for the MPhil degree until the Degree Committee has formally approved it in writing.

You must allow time for the completion of these examination processes if you need to receive notification of the outcome of your result by a certain date.

If you require advice regarding your visa please contact the International Student Office at: <https://www.iso.admin.cam.ac.uk/>

## **Degree Certificate**

Candidates will receive a certificate confirming the degree they have been registered for once it has been conferred upon them at a congregation (graduation ceremony). All students will be issued one free copy of their degree certificate upon graduation. One free copy of your academic transcript will also be posted to you within four weeks following congregation. If you did not receive your first certificate or transcript

please contact your college. Further copies of degree certificates are available from the Student Registry.

For further information about degree certificates

see: <http://www.cambridgestudents.cam.ac.uk/your-course/graduation-and-what-next/degree-certificates-and-transcripts>

### **Extended Self-Service (ESS) on CamSIS**

It is highly recommended that students apply for Extended Self-Service (ESS) on CamSIS when they leave the Department. ESS allows alumni to access their Self-Service account in CamSIS. It is the very best place to update contact information for all interested parties at the University and its Colleges.

It is available to any previous student who matriculated after Michaelmas term 1980 and access allows students to update contact details, view exam grades, view a copy of an unofficial transcript and apply for graduation.

It is only possible to access one view of CamSIS Self-Service at any one time. This will be EITHER standard Self-Service, OR Extended Self-Service OR Graduate Applicant Self-Service. For further information

see: <http://www.admin.cam.ac.uk/students/gateway/study/camsis/ess.html>

### **Continuing your Graduate Studies**

Any candidate wishing to continue to read for the PhD degree following the completion of their MPhil degree in this department should discuss the matter fully with his/her supervisor as early on in the academic year as possible.

Information about the Department's PhD programme, and how to apply for it is available from: <http://www.arct.cam.ac.uk/courses/phd-in-architecture>

Please note that you will need to achieve at least 70% in your MPhil programme in order to meet the minimum academic criterion for admission to read for the PhD degree.

The final deadline for applicants seeking funding is 3 January 2019, but earlier deadlines will apply (for example if you are applying for Gates Cambridge US round). Even if you are not seeking funding, we strongly recommend that you submit your application by 3 January 2019, as no applications will be accepted once this competitive and popular programme is full. For information on funding deadlines see: <http://www.graduate.study.cam.ac.uk/finance/funding>

If places are still available on programmes beyond this deadline; self-funded applicants will continue to be considered until the final deadline of 31 May 2019. No applications will be considered after this deadline.

## **Part IV: Best Research Practice**

### **Establishing an effective work routine**

Graduate work demands a high degree of self-discipline, and students are expected to take full responsibility for producing the required work to specified deadlines. One of the challenges of graduate study is to determine how effectively you work as an independent scholar. It is therefore essential that you establish a really good working routine and timetable, setting your own deadlines for the completion of various stages of your work.

### **Research Integrity**

Best practice in research requires both high quality research and academic integrity. The University supports this with clear policy, guidance and support.

Guidance on research integrity is available on the University's Research Integrity Website: <http://www.research-integrity.admin.cam.ac.uk/>

Research Students should be particularly aware of the University's Research Integrity Statement and Guidelines on Good Research Practice. A Research Integrity checklist has been provided to assist students and supervisors in addressing these issues.

### **Research Ethics**

Confidential sources, either documentary or interview material, can play an important role in research into contemporary topics for which documentation is otherwise unavailable, and there may be good reasons for insisting on confidentiality or anonymity. For guidance please visit <http://www.research-integrity.admin.cam.ac.uk/research-ethics>

### **Plagiarism**

Plagiarism is submitting someone else's work, ideas, or words as your own, irrespective of your intent to deceive. This means that even unintentional plagiarism through poor notetaking or inattentive referencing may be penalised. Understanding what plagiarism is, and learning techniques to avoid it, is an essential part of your academic training. For guidance please visit <http://www.plagiarism.admin.cam.ac.uk/what-plagiarism>

The University makes use of text-matching software for the purpose of plagiarism education and detection, and reserves the right to submit a candidate's work to such a service. For this purpose, candidates consent to the submission of their papers to the service and for the submitted papers to form part of the service's comparative source work database.

Research Office: Good Research Practice: <https://www.research-integrity.admin.cam.ac.uk/research-integrity/good-research-practice>

## **Working in Collaboration**

Candidates will be required to state in their dissertation:

- The sources from which information is derived.
- The extent to which they have availed themselves of the work of others.
- The portions of the dissertation which they claim are original work.

If the dissertation is almost entirely the candidate's own work, the following statement should be included in the preface:

*'This dissertation is my own work and contains nothing which is the outcome of work done in collaboration with others, except as specified in the text and acknowledgements.'*

For full information please visit <http://www.cambridgestudents.cam.ac.uk/your-course/examinations/graduate-exam-information/submitting-and-examination/phd-msc-mlitt/research#collaboration>

## **Work Submitted for Other Qualifications**

You are required to declare that the dissertation submitted is not substantially the same as any that you have submitted for a degree or diploma or other qualification at the University of Cambridge or any other university or similar institution and to identify any parts which have either been - or will be - submitted for any degree, diploma, or other qualification at the University of Cambridge.

A signed declaration in support of this must be submitted along with the soft bound dissertation and be included in the dissertation.

<http://www.cambridgestudents.cam.ac.uk/your-course/examinations/graduate-exam-information/submitting-and-examination/phd-msc-mlitt/research#anotherqual>

## **Intellectual Property**

The University's policy concerning Intellectual Property Rights can be found on the Research Office website: <https://www.research-operations.admin.cam.ac.uk/policies/intellectual-property-rights>

For further information please visit <http://www.cambridgestudents.cam.ac.uk/your-course/examinations/graduate-exam-information/submitting-and-examination/phd-msc-mlitt/research#ip>

## Copyright

Under the Copyright, Designs and Patents Act, 1988, ownership of the copyright of unpublished dissertations and theses and their summaries rests with the author for the duration of his or her lifetime and a given number of years thereafter, unless he or she specifically transfers it to another person.

When a dissertation is submitted for examination, the University will request candidates to sign a statement acknowledging their ownership of copyright in the dissertation and asserting their right to be identified as the author of the dissertation. For further information please visit <http://www.cambridgestudents.cam.ac.uk/your-course/examinations/graduate-exam-information/submitting-and-examination/phd-msc-mlitt/research#copyright>

## **Part V: Research Skills & Personal Development**

There is a wealth of sources at Cambridge from which you can develop and consolidate the skills you need to produce a successful thesis and to pursue a career following your graduate degree.

### **Supervisor/Course Director**

With regard to individual research, your Supervisor's advice is crucial. Your Supervisor will also help you to acquire skills including the planning and delivery of a sustained piece of academic writing.

Your Supervisor will also alert you to new advances in the subject, recent bibliography, and where to gain advice from other experts.

Together with the help of your Supervisor, you are expected to plan a bespoke training package for yourself and to record this in your development log (see above).

### **Department/Faculty**

In addition to the Department's research training programme, you are encouraged to attend relevant masters' seminar courses, research seminars and talks, peer monitoring within reading and discussion groups and any relevant skills training that is relevant to your research; for example, photography, building surveying and GIS. You are also welcome to attend any relevant events hosted by the Department of History of Art.

You are also encouraged, in consultation with your Supervisor and the Graduate Directors, to organise your own conferences, summer schools or workshops and can apply for funding to realise this. Information about funding for conferences is circulated to staff and students as soon as it is available.

### **College**

Your college hosts a cosmopolitan community of scholars spanning all disciplines and a lively forum for intellectual exchange and personal growth. See your Graduate Tutor or Grad Rep to find out about events and activities for graduate students. You may wish to organise an event of your own.

### **University Lectures**

You may find it useful to attend lectures relevant to your research held by other University departments and faculties. Most of the University's lectures are listed on the University's Timetable, see: <https://www.timetable.cam.ac.uk/>. Whilst you may attend any lecture, it is usual to ask permission from the relevant member of staff if you may attend.

In addition to scheduled lecture courses, there are also many one-off lectures and seminar presentations held by academics and visitors throughout the University. Keep your eye out for these in your email, noticeboards and websites.

## **Careers Service**

The earlier you make use of the services offered by the University's Careers Service, the easier you will find it to make informed decisions about what you would like to do following your time as an MPhil student: <http://www.careers.cam.ac.uk/>

## **Centre for Research in the Arts, Social Sciences and Humanities (CRASSH)**

CRASSH facilitate interdisciplinary initiatives and host discussion groups for graduate students: <http://www.crassh.cam.ac.uk/programmes/>

## **Personal & Professional Development – Researcher Development Programme**

The University offers an excellent development programme where you can develop your professional, technical and personal skills: <https://www.rdp.cam.ac.uk/>

## **Language Courses**

You may undertake language courses according to your needs in the Faculties of Modern and Medieval Languages, Classics, Asian and Middle Eastern Studies or the University's Language Centre. Palaeography courses and mediaeval Latin are offered by the Faculty of History.

The Language Centre has language training opportunities for graduate students within this School: <http://www.langcen.cam.ac.uk/lc/bursaries/graduate.html>

<http://www.mml.cam.ac.uk/>

<http://www.classics.cam.ac.uk/>

<http://www.ames.cam.ac.uk/>

<http://www.hist.cam.ac.uk/>

## **Museums & Collections**

Cambridge is home to the UK's highest concentration of internationally important museum collections outside London, housing over five million objects in one square mile. <http://www.cam.ac.uk/museums-and-collections>

## **Social Sciences' Research Methods Centre (SSRMC) Training Programme**

The SSRMC is an interdisciplinary initiative offering high quality research methods training to postgraduate students at MPhil and PhD level: <http://www.ssrmc.group.cam.ac.uk/>

## **University Information Service (UIS) – IT Training**

The UIS provides a full schedule of training courses for students of the University and Colleges, most of which are free of charge: <https://help.uis.cam.ac.uk/service/help-support/training>

## **University Library (UL) – Research Skills Programme**

Cambridge has one of the greatest collections of books and manuscripts in Europe, housed in over 100 individual libraries. The UL offers information skills sessions for graduate students. <http://www.lib.cam.ac.uk/>

## **Sport, Drama, Music, Societies, Volunteering**

You will have a unique opportunity to develop skills for your research, personal development and a healthy work life balance. <http://www.admin.cam.ac.uk/students/gateway/cambridge/social.html>

## **Your Sponsor**

If you are sponsored by a research council or other organisation, you may be eligible for research skill training opportunities or funding to support your training elsewhere. You will need to check with your sponsor to find out.

## **Vitae – Realising the Potential of Researchers**

Vitae is dedicated to realising the potential of researchers through transforming their professional and career development. <http://www.vitae.ac.uk/>

## Part VI: Health & Welfare

### Health & Safety Policy in the Faculty

#### Fire

On discovering a fire you should operate the nearest fire alarm call point (small, red wall-mounted boxes) by breaking the glass as directed on the front.

Fire extinguishers are located around the building. You should only attempt to tackle the fire yourself if you have been trained in the use of fire extinguishers and are confident in your ability to do so safely, without endangering yourself or others. Fire extinguishers are provided for tackling fires in an emergency and are positioned by members of the Fire Safety Unit in the places where they will be of most benefit. They are not door-stops and they are not to be moved for any reason.

The fire alarms are tested on Thursdays between 9.00am and 10.00am, when they will sound for no more than one minute. If the alarm sounds for longer than a minute or at any other time, you should assume it is not a test and evacuate the building immediately.

On hearing the fire alarm, you should leave the building quickly, closing doors behind you as you go and choosing the safest exit route (signalled by the green 'running man' signs), according to where the seat of the fire is believed to be. This may mean not using the route you normally use to enter and exit the building, so do take the time to identify fire exit routes as soon as you can, rather than waiting until there is an emergency.

If any of the access-controlled doors do not release automatically, lift the clear plastic cover on the front of the adjacent wall-mounted green box and break the glass as directed.

After leaving the building assemble:

- in the car park at the front of St. Peter's Terrace (on the left as you go out of the front of Scroope Terrace – on the far side of the Engineering driveway)
- or, in the car park at the rear of the Royal Cambridge Hotel (access via the Scroope Terrace car park).

Do not gather in front of the building – you may be putting yourself in danger (for example, from falling glass as the windows above you shatter in the heat), and you will certainly block others' safe exit and the access of the emergency services if they have to attend. Identified fire wardens will be on hand to provide direction. You must obey any direction that they give you, which will be for your own and others' safety. Do not return to the building until a fire warden has told you that it is safe to do so

and do not leave the fire assembly point – if you have been seen in the building prior to evacuation but are not present at one of the assembly points, emergency services may have to risk their own safety to re-enter the building and look for you.

In the event of the discovery of a suspect package, the same evacuation procedures apply.

You are responsible for any visitors that you bring into the building and for ensuring that visitors know what to do in the event of an emergency. The Faculty Manager (Andrew Bennett / (3)32593) and Custodian (Mr Alan Baldwin / (3)32991) must be informed immediately, via the Faculty Office, of any visitors who might experience difficulty in responding to a fire alarm and/or evacuating the building in an emergency, as we are required to produce a Personal Emergency Evacuation Plan.

The Faculty is required to carry out regular fire drills. Everyone is expected to take these seriously and to follow the above procedures as if there were a fire.

### **First Aid**

First Aid boxes are located at various points around the building, including the Faculty Office and the Studio. Please make sure you familiarise yourself with their location. The First Aider at Scroope Terrace is Mrs Julia Pettman (contact via the Faculty Office or in the office next to the Faculty Office, room 2.2, (3)32966). All accidents, however minor, must be reported to the Faculty Office in the first instance.

In the event of serious injury you should summon an ambulance by dialling 1999 on a network phone. In the event of moderate injury the victim should be escorted to Addenbrooke's Hospital out-patients - the Faculty will refund the cost of any taxi.

### **Security**

During normal working hours (9.00-5.15 Monday to Thursday; 9.00-4.15 Friday), any concerns with security should be reported to the Custodian, (Mr Alan Baldwin / (3)32991), the Faculty Office or the Faculty Manager (3)32593) immediately.

Outside normal hours, concerns should be reported to the University Security Control Centre on the emergency number 101 (internal) / (7)67444 (external) or the routine number (3)31818, depending on the perceived severity of the matter. In the event of a serious emergency, call the Police by dialling 999.

Despite all reasonable security measures, thefts do occur: please take care of your valuables. The University is not responsible for the loss or damage that may occur to cars, bicycles or any other personal property on its premises. You are urged to purchase a suitable locking cable for your laptop. CCTV operates at Scroope Terrace and may be able to assist in identifying any intruders or thieves.

## **Visitors**

If you invite a visitor into the Faculty building please could you arrange for them to:

- sign the Visitors Book held at Reception
- wear a VISITOR badge whilst in the building

Please also note that any visitors remain the responsibility of the person they are visiting whilst they are in this building and that visitors should have a genuine reason for being here. Please do not let anyone into either Scroope Terrace or 4a Trumpington Street (Department of History of Art) who you don't know. Unknown visitors should be accompanied to the Faculty Reception.

## **Smoking**

Smoking is not allowed anywhere in the building at any time. The fire alarms are smoke sensitive.

Smoking is also not allowed outside the front of Scroope Terrace, in doorways or close to windows where smoke may drift into the building. The designated smoking area is at the rear of the site, under the walkway between the Architecture Lecture Room and the Studio.

## **University Health & Safety**

The University's Health and Safety Office also has a broad range of guidance documents that you may need to refer to during your time at Cambridge, for example cycle safety and security. <http://www.admin.cam.ac.uk/offices/safety/>

## **Accommodation Service**

The Accommodation Service has hundreds of properties and over a century of experience. The Service has a definitive list of University accommodation, as well as hundreds of privately-owned properties and some College rooms. <http://www.accommodation.cam.ac.uk/>

## **Assistive Technology Support**

The Assistive Technology (AT) team is based within the University Information Service (UIS) and provides a wide range of assistive technology advice, training and support enabling students with specific requirements to make effective use of information technology.

<http://www.ucs.cam.ac.uk/support/assistive-technology>

## **Cambridge University Students' Union (CUSU)**

CUSU exists to represent your interests and ensure that you have a say in your University experience. Whether you are an undergraduate or a postgraduate, every Cambridge University student is automatically a member of CUSU. CUSU works by bringing together students from all Colleges and departments in order to campaign for positive change in Cambridge. As a student you will also be represented at College level by JCRs and MCRs, as well as by elected student representatives in your faculty. See: <http://www.cusu.co.uk/>

## **Childcare Office**

The Childcare Office oversees the facilities and assistance offered to University staff and students with children.

The University has two day nurseries at Edwinstowe Close and at the West Cambridge site for children from three months to school age, as well as a Holiday Playscheme which operates during the state school holiday periods (excluding Christmas and Bank Holidays) for school-age children, although the venue at St Mary's Junior School is also open for some additional holiday periods.

The Childcare Office also operates an Information Service, which aims to support families of the University community. The service offers information on family related issues including childcare, schooling, health care, financial support and local community resources. <http://www.admin.cam.ac.uk/univ/childcare/>

## **Counselling Service**

The University's Counselling Service is just round the corner from the Department in Lensfield Road and has a team of professionally trained counselling staff who can help in a variety of ways; one to one counselling, groups and workshops, self-help brochures, student counselling faqs. Its website has some extremely useful information. <http://www.counselling.cam.ac.uk/>

## **Dental Service**

To find a suitable NHS dental practice in Cambridge, see: <http://www.nhs.uk/Service-Search/Dentists/LocationSearch/3>

## **Disability Resource Centre (DRC)**

The DRC provides resources for disabled students: <http://www.admin.cam.ac.uk/univ/disability/>

The Disability Liaison Officer for the Faculty is Mrs Julia Pettman on [jwp34@cam.ac.uk](mailto:jwp34@cam.ac.uk). Her telephone number is: 01223 332966.

## **Doctors (Medical)**

The University of Cambridge does not have its own medical practice, and all students are advised to register with a local general practitioner (GP) when they arrive. Your College should be able to provide a list of local practices, or you could use the NHS search facility. <http://www.nhs.uk/Pages/HomePage.aspx>

## **Health & Welfare Guidelines**

Every year the University issues health guidelines to staff and students. These include information on meningitis, vaccinations, anaphylaxes and sexual health. In the event of an epidemic or pandemic it may also release information on the advice of the Health Protection Agency: <https://www.studentwellbeing.admin.cam.ac.uk/>

## Staff Responsibilities 2018 – 2019

Chair of the Faculty Board and Degree Committee:	Professor François Penz
Secretary of the Faculty Board:	Mr Andrew Bennett
Faculty Administrator:	Mr Andrew Bennett
Faculty Administrator's Assistant:	Mrs Julia Pettman
Secretary of the Degree Committee:	Dr Emily So
Degree Committee Administrator:	Mrs Claire Hogg
Head of Department:	Professor François Penz
Department Secretary:	Ms Sue Luxon
Director of the Martin Centre:	Dr Ying Jin
Martin Centre Research Administrator:	Mrs Anita Gunadi
Martin Centre Secretary:	Mrs Beau Brady-Patel
Graduate Director:	Dr Minna Sunikka-Blank
Deputy Graduate Director:	Dr Nick Simcik Arese
Faculty Graduate Administrator:	Mrs Claire Hogg
Faculty Graduate Assistant:	Miss Pilar Alonso
MPhil in Architecture and Urban Studies (MAUS) Course Directors:	Dr Nick Simcik Arese and Dr Minna Sunikka-Blank
MPhil in Architecture and Urban Design (MAUD) Course Director:	Ms Ingrid Schröder
MAUD Studio Masters:	Ms Ingrid Schröder, Mr Aram Mooradian and Mr James Pockson
MSt Building History Course Director:	Dr Adam Menuge
MSt Building History Course Administrator:	Ms Alex Lumley
Part 3 Course Director:	Ms Miranda Terry
Faculty Disability Liaison Officer:	Ms Julia Pettman
Faculty Safety Officer:	Mr Alan Baldwin

Faculty Computer Officer and Head of Digital and Infrastructure Services:	Mr Stan Finney
Digital Services Curatorial Co-ordinator:	Mrs Marisa Grove
Librarians:	Ms Laura Moss Ms Tanya Zhimbiev Miss Sophie Fletcher
Library Assistant:	
Chief Accounts Clerk:	Mr Neil Mayo
Faculty Receptionist:	Miss Alice Cuttriss
Workshop Supervisor:	Mr Clive Tubb
Chief Custodian:	Mr Alan Baldwin
Custodian's Assistant:	Mr Craig Baldwin

## **Graduate Handbook**

An electronic version of this Handbook is available on [Moodle](#). Please email the Faculty Graduate Office on: [graduate.admin@aha.cam.ac.uk](mailto:graduate.admin@aha.cam.ac.uk) if you have any comments or notice any errors in this handbook – thank you very much.
